7th Grade Studies the Solar System

The Montrose 7th Grade has been studying the solar system. As part of the lesson they constructed planets and added an information sheet for each planet. The planets were approximately scale models of the real planets. Jupiter, of course, was the largest, while Mercury was about the size

of a fingernail. On Monday, October 5th, they took the planets outside in order to place them at distances that were approximately to scale. The sun was added to give a focal point for their solar system. They now have a better concept of the vast distances in space, and of the relative sizes of the planets.

9/11--"We Will Never Forget"

Mr. Brady Cramer, social studies instructor, spearheaded the 9/11 Assembly on Friday. Senior Harrison Boden spoke about the events of that horrific day. The students and staff observed a moment of silence in honor of those who lost their lives on that "day we will never forget."
